

Jumpstart Your DO-254/DO-178C Program Success

Acquire Expertise – Leverage the thousands of hours of work and scrutiny by numerous industry experts that these templates represent.

Save Time & Money– Save many months of engineering effort you would normally spend on setting up your documentation set. Focus on adding YOUR specific content – not on whether the documentation framework is complete and correct.

Get Educated– “DO” Training is essential and these templates are your next step in learning, as they guide you through your actual DO-254 or DO-178C process.

Reduce Risk— Follow a proven path, since these templates have been used on hundreds of projects around the globe and accepted by all the leading worldwide certification agencies

A Complete Document Set Covering Your Entire Project

DO-254 Templates include:

- PHAC
- HDP
- HVP
- HCMP
- HPAP
- HRS
- HDS
- VVS
- HRD
- HDD
- HTP
- HCI
- HECI
- HAS

DO-178B/C Templates include:

- PSAC
- SDP
- SVP
- SCMP
- SQAP
- SRS
- SDS
- SCS
- SRC
- SDD
- SCAR
- SECI
- SCI
- SAS
- Supplement tailoring tables

Be Better Prepared and Reduce Risk of Audit Findings in Your DO-254/DO-178C Program

A Complete Set of Peer Review and Transition Checklists

Acquire Expertise – Leverage the hundreds of hours of work and scrutiny by numerous industry experts that these checklists represent.

Save Time & Money– Save many months of engineering effort you would normally spend on setting up your review criteria and/or fixing “findings” from audit failures.

Get Educated– “DO” Training is essential and templates help you to create your plans and documents, but the checklists provide you assurances during your audits by clarifying exactly what questions must be asked and answered with evidence during your program.

Reduce Risk– Know what you’ll be asked and be fully prepared to answer, before your customers and/or certification authorities hold their audits.

DO-254 Checklists include:

Peer Reviews

- General Audit
- Planning Docs
- HRD
- HDD
- Design Code
- HCI
- Test Procedures
- Test Results
- HTM
- HAS
- Tool Qualification

Transition Reviews

- Transition to Planning
- Transition to Requirements
- Transition to Conceptual Design
- Transition to Detailed Design
- Transition to Implementation
- Transition: Test Readiness
- Transition to Production Transition
- Transition: Conformity Review

DO-178C Checklists include:

Peer Reviews

- General Audit
- Planning Docs
- SRD
- SDD
- Code
- SCI – PDI
- SECI
- SVP
- SVR
- STM
- SAS
- Tool Qualification

Transition Reviews

- Transition to Planning
- Transition to Requirements
- Transition to Design
- Transition to Code
- Transition to Integration
- Transition: Test Readiness
- Transition to Final Compliance
- Transition: Conformity Review
